

PRESS RELEASE

Michael Jung resigned from Nanogate Executive Board

Page 1/2

Göttelborn, January 3, 2020 - Michael Jung (54) resigned from the Executive Board of Nanogate SE on December 31, 2019 by mutual agreement. He has worked for Nanogate, a leading global technology company for design-oriented, multifunctional surfaces and components, since 2001 and has been COO and member of the Executive Board since the IPO in 2006. He will be available to Nanogate as a technical advisor in the future.

The chairman of the supervisory board, Klaus-Günter Vennemann, expressed his recognition of Michael Jung's achievements: "We thank Michael Jung for his many years of successful commitment, from the company's founding phase to the IPO and international expansion, and we are delighted that he, as technical advisor, will continue to support the company. The Supervisory Board wishes Michael Jung all the best for the future, both privately and professionally."

Nanogate SE

Nanogate (ISIN DE000A0JKHC9) is a leading global technology company for design-oriented, multifunctional components and surfaces. The Group employs around 1,800 people. Nanogate develops and produces design-oriented surfaces and components and enhances them with additional properties (e.g. nonstick, scratchproof, anticorrosive). The Group has first-class references (e.g. Airbus, Audi, August Brötje, BMW, BSH Hausgeräte, Daimler, FILA, Ford, Fresenius, GM, Jaguar, Junghans, Porsche and Volkswagen). Several hundred mass production projects for customers have already been implemented successfully. The Nanogate Group is represented on both sides of the Atlantic and in India.

True to its slogan "Reinventing the Possible", Nanogate is a long-standing innovation partner who opens up the diverse possibilities offered by new materials to companies in a wide range of industries. It aims to improve customers' products and processes and to provide environmental benefits by using multifunctional surfaces, such as those made of plastic or metal, and innovative plastic components. The Group focuses on attractive applications, primarily for the mobility, aviation, home appliances, interior, leisure, and medical sectors – its target industries. As a systems provider, Nanogate broadly covers the value chain: design and engineering, materials development for surface systems, series coating of various different substrates as well as the production and enhancement of complete plastic components. The main value drivers are the opening up of international markets and the development of new applications, particularly for the three strategic areas Intelligent Surfaces, New Mobility and Artificial Metals.
